## **VI. Administration Procedure**

1. All the applicants to the same Department or Institute will be evaluated and screened on the basis of their qualifications and academic potentiality by the Department or Institute.
2. A list of acceptance will be decided by the College's "International Student Admission Review Committee."
3. All lists of acceptance from all colleges will be sent to the Office of Academic Affairs so as to work out the admission roster and send out the admission notice.
4. The admission roster will be publicized by **June 10, 2020**.

## **VII. Notes for Special Attention**

1. An international applicant cannot apply for more than three departments or institutes at the same time. In this case, please make sure to duplicate the application documents. If accepted by the university, the student may choose only one program to enroll in. However, the applications can be submitted together in a single packet.
2. It is the applicant's responsibility if he or she has not submitted all the required items of things in time and consequently is not accepted. No submitted documents will be returned.
3. No double identities (overseas compatriot students and international students): Individuals should decide with which status they wish to apply from the very beginning, as the rules are strict and there are no exceptions. Those who study in Taiwan with double identities (overseas compatriot and international student) will have their recognized student status revoked.
4. Upon completion of the course of study, at a school in Taiwan, to which an international student has applied, the student's admission to another school academic level shall be handled in a manner identical to the procedures for admission for local students. An exception is that an application for a master's degree or higher levels of graduate studies can be processed under the procedures of each individual school. International students can only apply with "Regulations Regarding International Students Undertaking Studies in Taiwan" issued by the Ministry of Education once.
5. No submitted documents should be false or legally invalid. Otherwise, the applicant may be rejected for admission or enrollment, expelled from school after enrollment, or even subject to have his or her degree certificate annulled if the infringement of the regulations is found after his or her graduation.
6. Each admitted student must complete the registration procedure in time in accordance with

the university's regulations. To register, he or she must produce the original copies of his or her passport and diploma (or degree certificate) for examination. To delay registration beyond the registration deadline will mean that the student has forfeited his or her eligibility for admission.

7. During the school time, no international student is allowed to make any household or move-in registration in Taiwan, nor is he or she allowed to change his or her nationality to that of R.O.C., nor is he or she allowed to restore his or her R.O.C. nationality. Any infringement of the regulations will incur the student's loss of the status as an international student and therefore he or she will be expelled from school.
8. Once an international student is expelled from a school in Taiwan due to misconduct, poor academic performance, or any legal problem, he or she is not allowed to apply for admission to our university as an international student. Any infringement of the regulation will incur the student's loss of eligibility for admission, and he or she will be expelled from the school anytime the infringement is found.
9. Classes of this university are conducted mainly in Chinese. All international students need to have Chinese proficiency.
10. At the time of registration new international students shall present proof of a medical and injury insurance policy which is valid for at least 6 months from the date the student enters Taiwan. If the abovementioned written proof of insurance was issued in a foreign country it shall be authenticated by an overseas mission.
11. An international student reporting to a university for registration at the time not beyond one-third of the first semester of the current school year shall register for the first semester; or at the time beyond one-third of the first semester of the current school year shall register for the second semester or the next school year.
12. The tuition rates for an admitted student will be determined based on the academic year he or she registered. Please note that the tuition fee for an international student from the academic year 2015-2016 is the same as a local student. However, the tuition fee for a student who studies in the School of Medicine and the School of Dentistry is twice as much as a local student.
13. Any details not mentioned or regulated in this prospect must conform to the laws or policy of the Ministry of Education, and "The Admission Regulations of Chung Shan Medical University for International Students" and other related regulations.
